EXPERIENCE HISTORY

2015-Current   **Noisegate Media**   **Senior Web Developer (PHP)**

I lead a team of 3 colleagues and responsible for developing and maintaining web sites, systems and services for a range of clients. Delegation of support requests and quoting of projects of various sizes. Encompassing the scoping out and specification of projects to fully understand the correct development approach and requirements utilising the agile development life cycle.

My role as a PHP Web Developer at Noisegate Media involves developing both new web applications and also provide support/enhancements to current applications using primarily, jQuery, MySQL developing on CMS platforms including Drupal, Symphony, WordPress and Noisegate Media's bespoke CMS system. I ensure the proper security of these sites on Apache servers, maintaining continued uptime. I also ensuring that code written conforms to necessary standards, is properly tested and documented.

2012-2014   **FPS Ltd**   **Web Developer (PHP)**

In this job I developed and maintained the Hub+ (FPS's internal website) as well as other websites looked after by the company. This includes documenting a development guide to keep record of the design techniques and location of pertinent files on relevant developed web sites. I primarily developed project specifications in line with expected style and functionality identifying the most efficient framework and programming languages for the task. My other general responsibilities included answering incoming phone calls when lines become busy and direct callers to the appropriate person in the business. Perform general weekly database updates to the cross reference application, Transfer F:drive setups files and product image updates. I also completed a monthly statistical report and retrieved F:Drive feedback submissions.

INTERESTS

I am a keen amateur genealogist who loves the challenge of trying to find out history of his family running my own website. I enjoy working, building and programming with computers in my spare time. I am also an active member of my local church. I enjoy socialising with others and going out in particular going to the cinema and reading.
